

Feedback from October 25 2011 Aberdeen Finding Petroleum forum "optimum supply chains"

Your Name and Company? (Optional)	Please rate the quality of the presentations	Please rate the venue	Please rate the refreshments	What did you enjoy most about the event?	How could we improve the next event?	Please suggest a topic(s) that you'd like covered in the future events	May we publish your feedback on our website?
Chevron	7	7	8	I enjoyed meeting delegates who are in the same business as I am and discussing current trends and issues that we all seem to share	I would like to see more practical demonstrations of the products the speakers were trying to sell	I would like to see and speak to like minded people on the subject of training within the supply chain as I think we have historically been used as a dumping ground for people who are ill equipped to carry out the basic functions required within our industry.	Yes, I'm OK with that
Janice Grant Shaw, Collabro Limited	8	8	8	Really enjoyed the event. I found the presentations professional, interesting and very relevant.	Less rain! Must have been the worst weather in Aberdeen for a very long time!!!! However that siad - it was great to have an event held in Aberdeen. Dyce may not be the best of places because of the issues in traffic in that area.	Planned Maintenance, integrated planning i.e. maintenance, planning, logistics and inventory management	Yes, I'm OK with that

Steve Johnson - Prosafe	9	9	9	It was great to see real information without being sold to !	It worked for me as it was	Supplier profiling and tactics for managing different supply chains Oil & Gas versus renewables. Can the supply chains work side by side	Yes, I'm OK with that
	9	9	9	All presentations...	Police invitees and force them to attend! :-)	More of the same, and how supply chain is evolving.	Yes, I'm OK with that
	8	10	10	Very well presented, good speakers who know what they were speaking about not just a sale pitch.	Fire and evacuation information at the start of the event.	Bar coding and RFID.	Yes, I'm OK with that
Moe Iversen Caterpillar	8	8	9	The opportunity to meet with executives and exchange ideas.	Allow time allocated to breakout groups and work sessions.	Safety and disaster recovery	Yes, I'm OK with that
Colin Manderson	7	2	6	Relevant content	Change location - useless for most folk living in Aberdeen or those staying in centre of town		Yes, I'm OK with that
Colin Manderson	7	2	6	Relevant content	Change location - useless for most folk living in Aberdeen or those staying in centre of town		Yes, I'm OK with that
